

# Let's draw the **FUTURE**...

## What does the future of renewable energy look like?

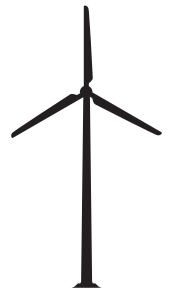

Today we generate power with wind turbines and solar panels. How do you think we will create energy in the future?

Battery

Solar Panel

Wind Turbine

## What does the future of transportation look like?

Today we use many forms of transportation to get around. How do you think we will travel in the future?

Airplane

Train

Bus

Truck

Electric Car

Gas Car
